**Student's Monthly Income and Expense Statement** (MIES)

Total gross income is one of the factors used in the federal formula to determine your eligibility for financial assistance. On your financial aid application, the total gross income you reported does not appear sufficient to meet basic living expenses. To assist us in evaluating your financial circumstances, we need to determine all sources of your income, as well as an estimate of your living expenses, such as food, clothing, utilities, housing, medical, transportation, etc.

Please have your parent(s) complete Sections I, II, and III below. Sign and return this form to our office. If additional space is needed, you may attach additional pages to this form. Response to this request for information is required as your financial aid eligibility cannot be determined until this form is submitted to our office.

**SECTION I. Monthly Expenses for 2007/2008**

Please provide your average monthly expenses for 2007 and 2008. If you share expenses with others, indicate only that portion of expenses incurred by you. Next to each item, fill in the dollar amount of your average monthly expenses for that item. If an expense occurs other than monthly, please estimate the expense for the year and divide by twelve (12) to determine the monthly average. All items must be complete. If an item does not apply, write "N/A" ("not applicable") for that item.
