

**2017 HEDS Sexual Assault Campus Climate Survey  
HEDS Undergraduate Frequency Report  
Whittier College**

**Released 06/15/2017**

This report contains comparative frequencies for undergraduate students who took the HEDS Sexual Assault Campus Climate Survey.

Each data tab compares your students who took the survey during the 2016–2017 academic year to students at small institutions and large institutions that participated in the survey in the 2015–2016 or 2016–2017 academic years.

Schools with fewer than 4,000 undergraduate students are in the small institution group, and schools with 4,000 or more undergraduate students are in the large institution group. We have combined institutions that do and do not belong to HEDS in the data.

**2017 HEDS Sexual Assault Campus Climate Survey  
HEDS Undergraduate Frequency Report  
Whittier College**

**Technical Information**

This file summarizes data from approximately 38,000 students at 81 institutions in total, including 75 small institutions and 6 large institutions that administered the HEDS Sexual Assault Campus Climate Survey in the 2015–2016 and/or 2016–2017 academic years. We designated schools with fewer than 4,000 undergraduate students as small institutions and schools with 4,000 or more undergraduate students as large institutions. Although these institutions vary in size and come from diverse Carnegie Classifications, most are private and predominantly serve undergraduate students. This report focuses only on undergraduate students.

	# of Women	# of Men	Total # of Students <sup>1</sup>	Response Rate <sup>2</sup>
Whittier College	142	54	200	13%
Small Institutions	22,371	10,312	33,474	23%
Large Institutions	3,208	1,283	4,564	12%

<sup>1</sup>The total number includes all valid responses, not just those students who identified as women or men. To be considered a valid response, a student must have clicked "Submit" at the end of the survey. The number of undergraduate women, number of undergraduate men, and total number of students include all students at undergraduate institutions, and students at other institutions who indicated that they were undergraduates.

<sup>2</sup>We calculated the response rate by dividing an institution's total number of valid responses by the number of emails successfully delivered through Qualtrics. Because we were unable to determine the number of undergraduate students that were contacted, the response rate reflects all responses, including those students who selected "Graduate Student" or "Other" as a college classification or skipped the college classification question in the survey.

**Unwanted Sexual Contact**

In the fall of 2015, we made an error in displaying Q10—"Who was responsible for this behavior?"— in our Qualtrics survey instrument, and it impacted the first eight institutions that administered the 2015–2016 survey. Because of this error, we coded these institutions' Q10 data differently, and therefore, we do not include their data in the comparison group frequencies for this question.

## Sexual Assault

We have broken down responses to Q13—"Since starting at Whittier College, have you been sexually assaulted while you were (a) on campus; (b) off campus at an event or program connected with Whittier College, including study abroad and internships; or (c) at a social activity or party near campus such as at an apartment, restaurant, or bar?"—by class year. Students who answered "No" or "I suspect that I was sexually assaulted, but I am not certain" in Q13 skipped directly to Section Three: Bystander Behaviors (Branch One or Branch Two: Versions One, Two, or Three).

We combined data from Q15—"Where did the sexual assault occur?" shown to students who experienced one assault—and Q16—"Please mark how many incidents of sexual assault you have experienced at each of the following locations" shown to students who experienced multiple assaults—to capture where all the sexual assault incidents that students disclosed in this survey took place.

### Details about Incidents of Sexual Assault

Students who were sexually assaulted were asked a series of questions about details of the assault. These questions appear on the "Details about Incidents of Sexual Assault" tab. Students who were sexually assaulted multiple times were asked to focus on only one incident of sexual assault when answering these questions. The majority of victims of sexual assault experienced more than one assault, and information on this tab reflects the one assault they chose to describe, not all the incidents they experienced.

Students who answered "One person" in Q17—"How many people sexually assaulted you?"— saw Branch A. Students who answered "More than one person" or "I am not sure" in Q17, or who saw Q17 but did not respond, saw Branch B. Questions in Branch A and B are identical, but sometimes Branch B employs the plural form. We have combined questions from Branches A and B into the frequencies we show for Q18–Q34.

We combined data from Q15—"Where did the sexual assault occur?" shown to students who experienced one sexual assault—and Q25—"Where did the sexual assault occur?" shown to students who experienced multiple assaults—to show where the one incident of sexual assault that students chose to describe in this survey occurred.

### Bystander Behaviors

Bystander Branch 2 has three versions of Q1, Q2, and Q3. The first version is for students who suspect that they were sexually assaulted, the second version is for students who experienced an attempted sexual assault, and the third version is for students who suspected that they experienced an attempted sexual assault. We combined data from these three versions for each question in the Branch 2 section of the "Bystander Behaviors" tab.
