URSCA SHOWCASE

UNDERGRADUATE RESEARCH, SCHOLARSHIP & CREATIVE ACTIVITY

APRIL 29, 2026

WELCOME TO URSCA 2026

We are excited to provide a forum for Whittier College students to present their original research, scholarship, creative work, and career readiness.

The mission of URSCA is to enrich the educational experience of our students by supporting a culture of research, scholarship, and creative activity that leads to the creation and dissemination of new knowledge. This support includes coordinating and promoting the College's annual URSCA Day, at which student research and creative activities are showcased, and advocating for full and equitable participation of students and faculty members in undergraduate research from the sciences to the arts, inclusive of efforts from all disciplines and interdisciplinary works.

This year's URSCA Showcase features Open Session Submissions and Conference Session Submissions. Open Session submissions were vetted by faculty instructors for required coursework and by project mentors for independent projects. Conference Session submissions were vetted by URSCA Committee faculty members and represent high-quality student research, scholarship, or creative work endeavors. The Showcase also includes poster presentations by students participating in the On-campus Internship Program highlighting their contributions to the critical work of numerous departments.

This day is the fruit of dedicated work, focused learning, and active mentoring. Enjoy this opportunity to continue learning from one another and to celebrate the accomplishments of Whittier College students.
