- US Constitution Requirement (if not met through options provided above)
- Subject Matter Competency Requirement (if not met through options provided above)

Important Notices

All undergraduate students are eligible to take Education courses that relate to the preliminary multiple subject credential; however, taking an education course does not mean one was formally admitted into the credential program. Only students who are formally admitted into the credential program are recommended for a preliminary credential.

Undergraduate students take sections of courses at the 300 and 400 level. Graduate students take courses at the 500 level and above. Courses taken at the undergraduate level (i.e. 300 or 400 level) do not count towards a Master of Arts in Teaching.

To be recommended for a preliminary credential, all credential requirements, including coursework, must be completed. All coursework must be completed with a B- or better. To matriculate through the credential program, cumulative GPA must be 3.0.
